me: yo
Adrian: hey
me: http://www.bradblog.com/?p=8865
me: also, heard you were banned from Project PM irc, I've had you unbanned if you ever want to come by
me: anyway, we're going to massively retaliate against Ryan and Barr alike
Adrian: cool, thanks
me: and put out real names of their associates at Backtrace/2600 etc
Adrian: has anything happened to Tom Ryan as a result of his OWS stuff?
me: not yet
me: although of course he claims he's received death threats
me: and likewise was apparently floating the idea that I and Anon are planning to kill him, as per the recording I sent you
Adrian: yeah
Adrian: also, who sent you a legal threat about your book?
me: Barry Friedman
me: also known as OpNoPro
Adrian: ah yeah, I know of him
me: elderly man with ties to intel, software community
me: yeah, he's a real character
me: which is one reason why he's going into the book
me: there was this whole long episode with him, me, Topiary, and a couple others all working on Skype for a while
me: and things got nuts
Adrian: right, yeah, I think I heard about that
Adrian: during the PBS hack and stuff
me: yep, he was on vid chat that night with Sabu, Top, and I
Adrian: Sabu claimed he was down at OWS
Adrian: Was trying to meet up with him, heh
me: you think he would have gone for that?
Adrian: nope
me: this is first guy we're going after
me: http://www.facebook.com/r.kirk.noble
me: @redlegion
me: falsely claimed we were crazy for accusing Provide Security of vandalizing our wiki despite him knowing it was them
